First International Marine Ingredients Conference Norway

Holmenkollen Park Hotel, Oslo 20 - 21 September 2010

Dear conference delegate

The First International Marine Ingredient Conference takes place in Oslo in September 2010. The ambition is to establish this event as "THE" most important and innovative meeting place for the international marine industry and other interested players.

We proudly present a very interesting programme which addresses challenges and introduces perspectives for the international marine ingredient industry. Many industry experts and researchers from all over the world will present marine innovations and developments of bioactive and nutritional marine ingredients for use in foods, functional foods, food and feed supplements, biotechnology, pharmaceuticals and other applications. International market trends and business opportunities for marine ingredients will be focused, and also challenges within documentation, regulatory issues, health, sustainability, food safety, food security and environmental issues.

Obviously, such an international conference includes more than the formal program. A "get together" reception will be held at the conference hotel Holmenkollen Park Hotell RICA in the old part of the hotel built in the Norwegian "dragon-style", and the conference dinner will take place at the hotel. There will be plenty of time for face-to-face contact with interesting and possible new collaborating partners during the conference. And for those of you who like to add practical industry input to your conference attendance, we invite you – after the conference, to visit Omegaland, (a cluster of marine ingredients enterprises). Hop on a plane from Oslo and go to beautiful Ålesund on the West coast of Norway. A nice conference bonus!

Welcome to a unique and unforgettable conference in Oslo!

Sigrun Bekkevold

Leader of the programme committee

Jostein Refsnes

Programme committee and organiser

Trude Olafsen

Coordinator of the conference

Programme committee and organisers

Sigrun Bekkevold General Manager

Trude Olafsen Senior Adviser SINTEF Fisheries and

RUBIN

RUBIN is a foundation established in Norway in 1992, and works for increased and more profitable utilization of byproducts and rest raw materials from the fisheries and fish farming in Norway.

MARING Forum

MARING Forum is a group within the Norwegian Seafood Federation organizing companies in the increasing biomarine industry in Norway.

Reception at the Holmenkollen Park Hotel RICA

The reception will be held at the conference hotel, Holmen-kollen Park Hotel RICA, in the old part of the hotel. Dating back to 1894, this old part is built in the Norwegian "dragon-style" - a worthy architectural sight.

Sponsors

www.seagarden.no

Main sponsor:

Seagarden is a leading supplier of high quality marine ingredients to customers worldwide. Seagarden's competitive advantages reside in its wide range of powders and extracts as regards both marine savoury ingredients and marine bioactives, its high quality standards and competitive prices.

Seagarden has several production plants along the Norwegian coastline that allow the company to secure full control of the manufacturing process and its high quality, and can rely on an extensive international sales and distribution network.

CALANUS www.calanus.no

Calanus AS is a biomarine company which develops unique health- and nutrition products based on the marine copepod Calanus finmarchicus, the largest renewable and harvestable resource in the North Atlantic Ocean. As the first mover in this field, the company has had to engage itself in developing the entire value chain, including harvesting, processing and product formulations.

www.nutrimar.no

www.pronova.com

www.nofima.no

www.sintef.no

www.nordlaks.no

www.gea-westfalia.no

www.akerbiomarine.com

Nutrimar is a producer of oil and other products based on rest raw material from salmon and other marine sources.

Pronova is a global leader in the research, development and manufacture of marine-originated omega-3 derived pharmaceutical products.

Nofima is a business oriented research group working in research and development for the aquaculture, fisheries and food industry in Norway.

As a well known independent and industrial research institute, SINTEF Fisheries and Aquaculture has know-ledge and broad competence in the field of utilization of renewable marine resources.

Now Nordlaks is processing salmon and trout oil and protein from super fresh raw material from own slaughter house and VAPfactory next door.

GEA Westfalia Separator is one of the world leading companies in separation techniques to food industry, industrial-, environmental-, marine- and offshore processes.

www.fmcbiopolymer.com

www.epax.com

Aker BioMarine is a vertically integrated company that manufactures bio-tech products based on Antarctic krill. Aker Bio-Marine's, human product, Superba® Krill Oil is high on omega-3 phospholipids and antioxidant astaxanthin. Qrill® is Aker BioMarine's brand name for the aquaculture and pet food market.

Flottweg is one of the leading manufacturers of high quality centrifuges for the food and beverage industry, the environmental protection and many other industries.

Programme

Sunday 19th September

16:00 Registration desk opens 18:00 - 20:00 Welcome Reception at Holmenkollen Park Hotel

Monday 20th September

08:30	Registration desk opens
10:00 - 10:05	
	Leader of the programme committee:
	Opening and welcome.
10:05 - 10:25	Fride Solbakken, Political adviser at the
	Ministry of Fisheries and Coastal Affairs
	Norway. Political goals and challenges.

Session 1

Setting the Marine Ingredient Scene

Chair: Jostein Refsnes

10:25 – 11:55	Albert Tacon, University of Las Palmas, Spain. Food from our oceans: raw material availability and opportunities for marine feed ingredients – a global overview.
10:55 – 11:15	Robert Wahren, Core Competence, Sweden. Industrial status for marine ingredients – market trends and success factors.
11:15– 11:35	Gunn Harriet Knutsen, FHL Maring, Norway. Regulatory framework for food and feed – Consequences for biomarine ingredients industry.
11:35 – 12:00	Coffee break and poster session

Parallel session 2A

Proteins and peptides; the new megatrend

Chair: Karl Almås

17:15

19:30

12:00 - 12:30	Hordur Kristinsson, Matis, Iceland.
	Marine hydrolysates – products and
12:30 – 12:50	potentials. Bjørn Skjævestad, Altavida, Norway.
12.50 – 12.50	Human health and nutrition products,
	untapped potential for marine protein
	ingredients.
12:50 - 14:00	Lunch
Industr	У
14:00 - 14:20	Rolf Berge, Marine Bioproducts,
	Norway. Tailor-making and documenting
	marine bioactive peptides.
14:20 - 14:40	Bernt Walther, Aqua Bio Technology/
	University of Bergen, Norway. Three
	billion years of Life without Health Care:
	Commercial and Medical uses of Marine
14:40 - 15:00	Proteins. Michael Doolan, Complete Filtration
14.40 – 15.00	Resources, Italy. Recovery of added value
	protein fractions.
15.00 15.00	
15:00 – 15:30	Coffee break and poster session
DOD	
R&D	
15:30 – 15:50	André Marette, Laval University
	Quebec, Canada. The effect of fish
	proteins and peptides on type 2 diabetes
15.50 16.10	and related metabolic disorders.
15:50 – 16:10	Bjørn Liaset, National Institute of Nutrition and Seafood Research, Norway.
	Modulation of bile acid metabolism in
	the prevention of obesity related diseases
	- a novel mechanism for dietary FPH.
16:10 - 16:30	Edel Elvevoll, University of Tromsø.
	Norway. Marine Bioactive Peptides
	from digestion and their relation to car-
	diovascular markers.
16:30 – 16:45	Ingrid Undeland. Chalmers University of
	Technology, Sweden. Production of
	protein isolates from underutilized marine raw materials using pH-shift processing.
16:45 – 17:00	Harald Breivik, Neperdo Biomarine,
10.15 17.00	Norway. International standard for
	protein hydrolysates.
17:00 - 17:15	Questions and discussion

Closing remarks day 1

Conference dinner

Parallel session 2B

Omega-3, marine lipids - latest developments and trends

Chair: Gunnar Berge

12:00 - 12:30	Michael Crawford, London Metropolitan
	University, United Kingdom. The
	sustainability of human intelligence
	depends on the sustainability of Marine
	Ingredients.
12:30 - 12:50	Adam Ismail, Global Organization for
	EPA and DHA omega-3 (GOED), USA.

An overview of EPA/DHA omega-3 markets and innovation.

12:50 - 14:00 Lunch

14:00 – 14:20 Odd Ivar Lekang, Norwegian University of Life Sciences, Norway. Alternative sources for omega-3 oils, potentials and limitations.

Industry

14:20 - 14:40	Nils Hoem, Aker Biomarine, Norway.
	Phospholipids from Antarctic Krill -
	their production, structural chemistry
	and areas of use.

14:40 – 15:00 Ragnar Hovland, Pronova Biopharma, Norway. Marine ingredients in pharmaceutical products- barriers and opportunities.

15:00 – 15:30 Coffee break and poster session

R&D

19:30

15:30 – 15:50	Revilija Mozuraityte, SINTEF Fisheries and Aquaculture, Norway. Pro-oxidants and anti-oxidants in oxidation of marine phospholipids.
15:50 - 16:10	Xuebing Xu, University of Aarhus,
	Denmark. Process development for
	enzymatic upgrading of Omega-3 oils.
16:10 – 16:30	Charlotte Jacobsen, Technical University
	of Denmark. Oxidation stability in foods
	enriched with omega-3 fatty acids.
16:30 – 16:50	Bente Ruyter, Nofima, Norway. Low
	oxidised oils and potential health
	advantages.
16:50 – 17:20	Questions and discussion
17:20	Closing remarks day 1

Conference dinner

Tuesday 21th September

Session 3

Runner ups in the marine ingredient family

Chair: Jarle Wang-Andersen

00:00 00:20	Dimitri Sclabos, Tharos Ltd , Chile.
09.00 - 09.30	
	South American (Antarctic) Marine
	Ingredients. Processing, Supply and
	Demand Outlook.

09:30 - 09:50Kurt Draget, NOBIPOL NTNU, Norway. Physical properties of gelatines from marine cold water fish species as function of extraction conditions.

09:50 – 10:10 Morten Sørlie, Norwegian University of Life Sciences/Kjell Vårum, NOBIPOL, *NTNU, Norway.* The many faces and applications of chitosan.

10:10 – 10:45 Coffee break

10:45 – 11:05 Otto Pulz, IGV Institut für Getreideverarbeitung GmbH, Deutchland. Industrial scale production of microalgae biomass for valuable substances.

11:05 – 11:25 Nils Henrik Norsker, University of Wageningen, Netherlands. Microalgae as ingredients in food and nutraceuticals.

11:25 - 11:45Elisabeth Holen, National Institute of Nutrition and Seafood Research. Norway. Nucleotides from cod roe, effects on humane immune cells.

11:45 – 12:00 Ouestions and discussion

12:00 - 13:00 Lunch

Session 4

Marine Ingredient Industry – case studies

Chair: Kjartan Sandnes

13:00 – 15:00 • Bjarte Langhelle, Seagarden, Norway. Seagarden ASA - a global supplier of marine savoury and bioactive ingredients • Jan Raa, Calanus, Norway. Calanus

finmarchicus: A pre-eminent source of novel marine ingredients, including an oil with remarkable effects on obesity related disorders.

• Ivar Storrø, SINTEF Fisheries and Aquaculture, Norway. From offal to profit - potential in pelagic industry.

• Gjermund Vogt, Nofima, Norway. Next generation of Omega-3 oils and their applications

• Björn Štrandwitz, Biopolymer Products of Sweden AB, A unique multipurpose glue from the common blue mussel for medical and technical applications

Questions and discussion "Best poster" 15:00 - 15:20

15:20 - 15:3015:30 – 15:45 Closing address

Reputable industry experts and researchers from all

Sigrun Bekkevold General Manager RUBIN, Norway

Kurt Ingar Draget Prof II / Res. Scientist Norwegian Biopolymer Laboratory, NTNU, Norway

Bjørn Skjævestad CEO Altavida AS, Norway

André Marette Professor of Medicine at Laval University, Canada

Fride Solbakken Political adviser at the Ministry of Fisheries and Coastal Affairs, Norway

Bernt T. Walther Professor at Department of Molecular Biology, University of Bergen, Norway

Bente Ruyter Senior Scientist Nofima Marin, Norway

Michael Crawford Dir. of The Institute of Brain Chemistry and Human Nutrition, London Metropolitan University, UK

Bjørn Liaset Scientist at NIFES, Norway

Charlotte Jacobsen
Head of Section for Aquatic
Lipids and Oxidation at the
DTU, Denmark

Dimitri Sclabos Katevas General Manager Tharos' Ltd., Chile

Edel ElvevollProfessor at the University of Tromsø, Norway

Hordur Kristinsson Director of Biotechnology and Biomolecules Division at Matis, Iceland

Ivar Storrø Senior researcher at SINTEF Fisheries and Aquaculture, Norway

Kjell VårumProfessor at Department of
Biotechnology, NTNU,
Norway

Niels-Henrik Norsker Researcher at Wageningen Universitet, Netherlands

Nils Hoem Vice President Pharma Aker BioMarine ASA, Norway

Odd Ivar Lekang Associate Professor at IMT, Norwegian University of Life Sciences, Norway

Otto Pulz
Head of the biotechnology
department IGV GmbH,
Germany

Robert WahrenCEO Core Competence AB,
Sweden

Rolf Kristian Berge Professor Department of Clinical Biochemistry, University of Bergen, Norway

Albert Tacon Visiting Professor Aquaculture Reserch Group University of Las Palmas, Spain

Xuebing Xu Professor in Agro-Biotechnology Science, Aarhus University, Denmark

Gunn Harriet Knutsen FHL Maring, Norway

Harald BreivikCEO in Neperdo Biomarine,
Norway

over the world...

Morten Sørlie Professor at IKBM Norwegian University of Life Sciences, Norway

Ingrid Undeland Associate professor Chalmers University of Technology, Sweden

Elisabeth Holen Scientist at Aquaculture Nutrition, NIFES, Norway

Ragnar Hovland Director Discovery Research at Pronova BioPharma, Norway

Michael Doolan Divisional Director Europe Complete Filtration Resources, USA

Gjermund Vogt Researcher at Nofima Mat, Norway

Jan Raa Prof. eremitus, Norway

Revilija Mozuraityte Scientist at SINTEF Fisheries and Aquaculture

Adam IsmailExecutive Director of the GOED, United Kingdom

Bjarte Langhelle Commercial Director, Seargarden, Norway

Study tour to Omegaland in the Alesund area

There will be arranged a one day study tour after the conference to Ålesund - a city in the Western part of Norway. Omegland - a network organising the marine ingredient industry in the area - are the formal organiser of the study tour. We can promise interesting industry visits to Vital Seafood and EPAX and you will learn more about the network Omegaland. Nice sight-seeing in a spectacular part of Norway and good food are included!

Programme:

- Opening session, by Robert Wolff, Project Manager of Omegaland
- Visiting Vital Seafood
- Lunch
- Visiting EPAX
- Gathering dinner

Date

22. - 23. of September following the main conference.

How to reach Alesund

The easiest way to reach Ålesund is to travel by air. Both SAS and Norwegian operates from Gardermoen to Vigra, Ålesund. Delegates have to book and pay for their own flight. We recommend you to travel from Oslo at evening the 21. If you want a memorable voyage, you can travel from Ålesund by the coastal express Hurtigruten either southward to Bergen (00:45 am) or northward to Trondheim (15:00 pm), and then by airplane or train back to Oslo. This is not organised by Omegaland.

Hotel

We will stay at Raddisson Blu Hotel. Special offer for delegates are NOK 1120,- for single room and NOK 1320,- for double room. Delegates have to pay for their own accommodation. Reservation will be done once you have registered.

Price

Total cost for study tour is NOK 1500,-. This includes lunch, study tour and gathering dinner. If you only will attend dinner, the cost is NOK 350,-.

For more information and registration: www.omegaland.no or link from www.marineingredients2010.net. and/or contact Project Manager at Omegaland, Robert Wolff: robert.wolff@omegaland.no Phone: +47 994 49 579

Terms of registrations

All registrations are to be made online. At time of registration it is mandatory to pay the whole conference fee. The secure online payment system accepts all major credit cards: Master, VISA, AMEX and Diners. Hotel booking for Holmenkollen Park Hotel Rica must be made through the conference registration form.

Deadline for registration is 20 August 2010.

Conference fees

The conference registration fee includes all meeting material, including a folder of abstracts.

Early registration will give you a considerable discount: Registration before 15 June 2010: NOK 3 300 (approx euro 400) Registration between June 15 - August 20: NOK 4 300 (approx euro 520)

Accomodation, meals and social events

(in addition to the conference fee)

A limited number of rooms have been reserved for MIC 2010 at Holmenkollen Park Hotel RICA- to a reduced price.

Reception 19 September (a light meal and drinks included): NOK 450 Full board* Single room 20.-21.September NOK 2 830 Full board Double room 20.-21.September NOK 4 930

*Full board includes room with breakfast, lunches 20-21 Sept and conference dinner 20 Sept

Single room 19.-21.September (full board 20-21 + room with breakfast 19-20) NOK 4 025

Double room 19.-21.September (full board for two persons 20-21 + room with breakfast 19-20) NOK 6 226

Single room 20.-22. September (full board 20-21 + room with breakfast 21-22) NOK 4 025

Double room 20.-22.September (full board for two persons 20-21 + room with breakfast 21-22) NOK 6 226

Single room 19.-22.September (full board 20-21 + room with breakfast 19-20 and 21-22) NOK 5 220

19-20 and 21-22) NOK 5 220 Double room 19.-22. September (full board for two persons 20-21 + room with breakfast 19-20 and 21-22) NOK 7 522

Hotel expenses (lunches and coffee breaks) without overnight lodging for the whole conference and without conference dinner - day 1 and 2: NOK 1.230

Conference dinner, drinks included (for those with no accommodation at the hotel): NOK 650

NB! Hotel expenses (full board) are paid directly to the hotel when checking out. Meals and social events for non residents are paid online at registration.

Cancellation policy

MIC 2010 holds one uniform cancellation policy for the registration fee, hotel bookings and optional program items all alike. Cancellations must be made directly by e-mail to mic2010@videre.ntnu.no.

The cancellation fee will be NOK 500 administration charge for cancellation received within 20 August. For cancellation after 20 August, the fees must be paid in full.

Contact

All registrations, changes, cancellations and payment are handled by mic2010@videre.ntnu.no.
