# The 2<sup>nd</sup> International Symposium on Integrated Coastal Zone Management Arendal, Norway, 3 – 7 July 2011

# Hosted by THE INSTITUTE OF MARINE RESEARCH, Norway

Venue: Tyholmen hotel and Thon Hotel, Arendal

#### 1. Background and themes

#### **Background**

The coastal zone includes both coastal waters and the narrow strip of land separating the marine and terrestrial environment. The coastal zone thus offers a myriad of goods and services ranging from production to protection. Despite its relatively small share of the global surface, this zone is highly productive and sustains a high biodiversity. Growing pressure from increasingly diverse human activities coupled with climate change impacts threaten the functional integrity of these coastal ecosystems. A multi-disciplinary approach towards understanding drivers, pressures and impacts in the coastal zone requires effective integration of data and information in policy and management.

The first International Symposium on Integrated Coastal Zone Management (ICZM) was hosted by the Institute of Marine Research, Norway and held in Arendal, Norway, on June 11-14, 2007. The international attendance and multi-disciplinary contributions to this symposium demonstrated the need for international fora for discussing and developing integration of science and policy, and for further symposia on this topic. This first symposium was particularly successful in bringing together people representing different disciplines, including managers. All lectures were carried out in plenum, which meant that scientists in different disciplines and managers had the opportunity to listen and learn from each other, resulting in a special atmosphere important for breaking down barriers.

The second ICZM symposium will again be hosted by the Institute of Marine Research, Norway in Arendal, Norway, and held on July 3 – 7, 2011. This multi-disciplinary international conference is intended to promote science and integration of knowledge for the sustainable management of coastal resources. It will provide a venue for scientists, engineers, managers and policy-makers to discuss recent advances and innovative ideas, to share experiences and to develop networks.

#### Themes and WS:

#### 1. Coastal habitats and ecosystem services

- Importance of coastal habitats for fish stocks and biodiversity
- Goods and services of the coastal systems
- Indicators of coastal ecosystem health
- Valuation of ecological qualities
- Indicators of sustainability (societal, ecological)
- Indigenous value of coastal habitats
- Vulnerability assessment
- Utilization of modern seabed- and habitat mappings

#### 2. Adaptation/mitigation to change in coastal systems

- Coastal tourism and urbanisation
- Eutrophication and pollution
- Invasive species
- Pulse impacts (regional flooding, oil spills)
- Maritime Transport
- Coastal renewable energy
- Cumulative impacts
- Habitat destruction and modification
- Coastal use and coastal defence

#### 3. Coastal governance

- Managing multiple resource and area uses
- Multi-scale governance structures
- Involving stakeholders in Coastal Zone Management (CZM)
- Scales of stakeholder involvement
- The role of dissemination and public perception in coastal policies
- Lessons learned (especially related to evolving/adaptive management)

#### 4. Linking science and management

- How can indicators be useful to improve management practices
- Information needs for policy making and management
- Linking watersheds and the coastal zone
- Linking Coastal Zone Management and marine value creation (fisheries and aquaculture)
- Managing water resources (water quality and supply)
- Preserving cultural heritage and local coastal communities
- Resolving problems of scale and seasonality
- Integrating science advice into policy decisions

#### Workshops:

#### WS 1: Integrated modeling of social and ecological coastal systems

- The system approach
- Modeling tools and communities
- System dynamic modeling
- Agent based modeling
- Status of available models
- Applications

#### **WS 2: Future management instruments**

- Ecosystem based management (EBM)
- Marine Protected Areas (MPA)
- Marine Spatial Planning (MSP)
- Integration of on- and off-shore planning
- Incentives versus regulatory instruments
- Deliberation tools

#### **Special Poster session:**

#### Poster 1: Regional overview and ongoing projects

- Regional Marine and Coastal strategies
- Ongoing larger projects

#### Poster 2: Regionalisation of climate change scenarios

- Climate change
- Urbanisation

#### 2. Convener, Int. Scientific - and National and Local Organising Committee

Convener: Erlend Moksness, IMR

#### International Scientific Committee:

Chairperson: Josianne Støttrup, Denmark

Joe Arbour, Canada Cedric Bacher, France Denis Bailly, France

Benedict Balderrama, Philippines Vivian Montecino Banderet, Chile Evgenyi I. Barabanshchikov, Russia

Biliana Cicin-Sain, USA
Einar Dahl, Norway
Ragnar Elmgren, Sweden
Thomas Sawyer Hopkins, Italy
Victoria J. Isaac, Brazil

Gerard M. Janssen, The Netherlands

Masahide Kaeriyama, Japan Andreas Kannen, Germany Merle Looring, Estonia Beatriz Morales-Nin, Spain

Melissa Nursey-Bray, Australia Stephen Olsen, USA

Stephen Olsen, USA Alan Pickaver, EUCC Chang Ik Zhang, Korea

#### **National and Local Organising Committee**

Chairperson: Einar Dahl, IMR

Eva Degre, DN Carsten Hvingel, IMR Svein Jentoft, UiT Jan Atle Knutsen, IMR

Thomas C. Langeland, Fiskeridirektoratet

Eirik Mikkelsen, NORUT Alice Newton, NILU Audun Sandberg, BUC

Jan Henrik Sandberg, Fiskarlaget Ragnar Sandbæk, Fiskeridirektoratet Morten Sørensen, GRID Arendal

Heidi Thygesen, IMR Mats Walday, NIVA

#### 3. Overview timetable

#### Sunday 3 July 2011

1700 - 2200 Registration

1900 - 2200 Welcome reception. Host: Arendal kommune

#### Monday 4 July 2011

0800 - 0900 Registration

0830 - 0900 Opening ceremony

0900 - 0945 Introductory lecture

1000 - 1800 Theme 1: Coastal habitats and ecosystem services

1400 - 1800 WS 1: Integrated modeling of social and ecological coastal systems

1400 - 1800 WS 2: Future management instruments

1930 - 2130 Reception at Institute of Marine Research

#### Tuesday 5 July 2011

0900 - 1700 Theme 2: Adaptation/mitigation to change in coastal systems

1700 - 1900 **Poster Session** 

1700 - 1900 Special Poster Session: Regional overview and ongoing projects

1700 - 1900 Special Poster Session: Regionalisation of climate change scenario

#### Wednesday 6 July 2011

0830 - 1530 Theme 3: Coastal governance

1530 - 1800 Special session: Elinor Orstrom; The Commons perspective – influences on ICZM practices

2000 Banquet at Tyholmen hotel

#### Thursday 7 July 2011

0900 - 1500 Theme 4: Linking science and management

1500 - 1545 Summing by Session Chairmens; Synthesis and future directions

1545 - 1600 Awards - closing remarks

Page: 5 21 December 2009

#### 4. Important dates

15 January 2011 - Abstract submission deadline

1 March 2011 - Abstract acceptance notification

1 April 2011 - Early registration deadline

3 - 7 July 2011 - Symposium

6 July 2011 - Manuscript submission deadline

#### 5. Publication:

The Symposium proceedings will be published Wiley-Blackwell Publishing.

#### http://www.wiley.com

Papers, including those based on poster presentations, will be considered for publication following peer review. To ensure timely publication, contributors are asked to bring their manuscripts to the meeting in a standard format. Since the proceeding will be restricted to 350 pages, this will allow approximately 30 papers of 10 pages apiece. These must pass the review process and meet the deadlines to be included in the symposium volume. The absolute deadline for acceptance of papers to the proceedings volume is July 12, 2011.

Copies of the proceedings will be sent to all registered Symposium participants by December 2012.

#### 6. Accommodations

	Single room	Double room*		
Clarion Hotel Tyholmen, Arendal	( ) NOK 1095	( ) NOK 1295		
Thon Hotel Arendal, Arendal	( ) NOK 1095	( ) NOK 1295		
Park Inn Arendal	( ) NOK 1095	( ) NOK 1295		
Arendal Herregård	( ) NOK 1195	( ) NOK 1395		
Strand Hotel, Fevik	( ) NOK	( ) NOK		

<sup>\*</sup> Payment for total number of persons in double room – 2 persons

**Total capacity: 245 rooms**
